(1)

The CO<sub>2</sub> emissions entered are mixed and expressed in grams per kilometre. The fuel consumption and CO<sub>2</sub> emission values provided comply with WLTP approval (EU regulation 2017/948). Since 1 September 2018, new vehicles are approved on the basis of the worldwide harmonised light-duty vehicles test procedure (WLTP), which is a new, more realistic test procedure to measure fuel consumption and CO<sub>2</sub> emissions. This WLTP procedure fully replaces the New European Driving Cycle (NEDC), which was the previous test procedure. As the test conditions are more realistic, the fuel consumption and CO<sub>2</sub> emissions measured according to the WLTP procedure are, in many cases, higher than those measured according to the NEDC procedure. The fuel consumption and CO<sub>2</sub> emission values may vary depending on specific equipment, options and types of tyres. Contact your point-of-sale for more information. The addition of optional extras may result in the vehicle increasing in Co2 g/km and therefore, attracting a higher rate of VRT than described in this product guide. For your exact configuration value, both Co2 g/km and RRP, please contact your local dealer or visit [www.peugeot.ie](http://www.peugeot.ie)  
Note: Some options may require other options depending on the item and trim line.

## PEUGEOT i-Connect Advanced

PEUGEOT i-Connect Advanced<sup>(1)</sup> offers a complete technological experience with TomTom® connected navigation. For optimal readability, the card can be displayed on the entire 10-inch HD touchscreen and updated "live" (once a month). It is also fully and easily customizable with widgets, such as a tablet. «OK PEUGEOT», a natural language speech recognition control, improves the safety and comfort of the user, and gives access to all the features. Finally, to help the user, PEUGEOT i-Connect Advanced offers embedded documentation and tutorials.

(1) Available as an option or unavailable depending on the version.

## DRIVE ASSIST PLUS Pack

The Drive Assist Plus Package<sup>(1)</sup> allows you to manage driving semi-autonomously. With the track positioning system<sup>(2)</sup> and adaptive cruise control including the Stop & Go<sup>(3)</sup> function, it automatically adjusts the speed of the vehicle to that of the one preceding it, maintaining a safe distance.

(1) Available in series, optional or unavailable depending on versions.  
(2) A system for maintaining the position of the car chosen by the driver in the lane.  
(3) A system based on radar in the centre of the front bumper and a camera at the top of the windscreen.
