"Recommended Retail Prices & Annual Road Tax are calculated using the base model WLTP values and are subject to change as a result of your vehicle configuration. Škoda Ireland reserves the right to alter pricing and specification without notice. Delivery & Related Charges Extra - please contact your local Škoda dealer for more information. Škoda Ireland has made every effort to ensure the accuracy of information but does not accept liability for any errors or omissions. The specified fuel consumption and emission values were presented, are the official figures unless stated otherwise and are obtained in accordance with Worldwide Harmonized Light Vehicle Test Procedure (WLTP) and are correct at the time of publication. WLTP values reflect the worldwide standard vehicle range excluding additional equipment such as optional extras and accessories which may have an effect on the fuel consumption (l/100km) and CO_2 emissions produced. Please note WLTP values for vehicle range and consumption may not be realised in real or day to day driving conditions"

ŠKODA

Peaq Selection 60/90/90X: Key equipment

SAFETY
Side Assist – blind spot monitoring system
Crew protect assist
Driver monitoring system
One pedal driving technology
Mobile digital key incl. 2x physical keys
Adaptive lane assist incl. emergency assist
iSOFIX child seat anchor points
Turn assist incl. crossroad assist
Tyre pressure monitoring system
Front & rear side airbag with front curtain airbag
Driver & front passenger airbags
Front assist: Forward collision warning incl. emergency brake & pedestrian recognition

FUNCTIONAL
Climatronic 3-zone air conditioning
Adaptive cruise control incl. traffic jam assist
Kessy Full – keyless entry/go system
Front & Rear parking sensors
Rear view camera
Drive mode select
Virtual pedal – electric tailgate
Power folding exterior mirrors
Automatic rain & light sensors
Auto-dimming rear view mirror
Vehicle to load (V2L) readiness (adaptor required)
3-pin boot socket with vehicle to load capability
35 litre front trunk
Dual wireless charging ring (subject to device compatibility)
Infotainment pack: ▪ 13.6” vertical touchscreen display ▪ Navigation system ▪ Bluetooth & Voice control ▪ Smartlink (Apple Carplay / Android Auto) ▪ 2x USB-C ports & 8 speakers ▪ Online services (10-years subscription) ▪ 10GB monthly data pack (3-year subscription)

INTERIOR
Heated front seats
‘Suite’ design selection upholstery
Front centre armrest
Split folding rear seats incl. rear centre armrest
Electric front seats incl. memory function
Front & rear floor mats
Storage compartment in boot
Leatherette heated steering wheel (2-spoke)
LED interior pack: ▪ LED ambient lighting ▪ LED footwell lights ▪ ‘Welcome’ logo projection

EXTERIOR
19” ‘Whale’ alloy wheels
Flush exterior door handles
LED headlights
LED tail light
Tech deck front grill
Škoda UDC inscription on D-pillar

EA9	Extended warranty (5 year / max 150,000km)	€781	€781

Peaq: Exterior Colours

Energy Blue (K4K4 – Solid)

Steel Grey (M3M3 – Solid)

Black Magic (1Z1Z – Metallic)

Graphite Grey (5X5X – Metallic)

Race Blue (8X8X – Metallic)

Moon White (2Y2Y – Metallic)

Smokey Diamond Silver (B3B3 – Metallic)

Rosewood Beige (4P4P – Exclusive)

Olibo Green (R2R2 - Exclusive)

Velvet Red (K1K1 – Exclusive)

DESCRIPTION	Selection 60/90/90X	Sportline 90/90X
Solid: Energy Blue	€0	€0
Solid: Steel Grey	€877	€877
Metallic	€877	€877
Exclusive: Rosewood Beige, Olibo Green, Velvet Red	€1,182	€1,182

Optional paint prices quoted are for reference only and are subject to change depending on VRT band applicable – please contact your local Škoda dealer for more information. All the colour images on this page are matched as accurately as possible to the actual paint colours used. However, due to print processes, Škoda Ireland cannot guarantee that colours shown are 100% accurate. Please contact your local Škoda dealer for more information.

ŠKODA

Battery & Charging

An electric vehicle's power is not determined solely by the power of the electric motor itself, but also by the power that the battery is able to deliver. As such, the value cited for the car's power is determined by the entire drive system.

Battery	DC charging power	System output*
63 kWh	160 kW	150 kW
91 kWh	199 kW	210 kW
91kWh	199 kW	220 kW

*The availability of the maximum electrical output could be limited. The amount of power available in individual driving situations depends on various factors, such as ambient temperature, the charge status, temperature and condition or physical age of the high-voltage battery.

Electric vehicles can be charged at public charging stations much like you would refuel a normal car at a petrol station. These charging stations are powerful so they can recharge vehicles' batteries rapidly. Most users, however, will generally use a home charger – a Wallbox – or an ordinary power socket. This charging takes longer, but hooking up to the grid is an automatic process and you can charge the batteries overnight, or at any time you are not using the car, without having to be present.

Source	Charging	60	90	90X	Cable
Home socket	Charging power Charging time (0-100%)	Max 2.3 kW >24 hours	Max 2.3 kW >24 hours	Max 2.3 kW >24 hours	Mode 2
Wallbox (3-phase)	Charging power Charging time (0-100%)	Max 11 kW 6hr 30 min	Max 11 kW 9 hours	Max 11 kW 9 hours	Mode 3
DC fast charger	Charging power Charging time (10-80%)	Max 160 kW 27 mins	Max 199 kW 28 mins	Max 199 kW 28 mins	Mode 4 – part of charging station

- All charge times are average and can vary depending on certain conditions, such as temperature and power supply available.

Škoda EV Plan: €1,250 optional addition

The new Škoda Peaq uses the latest materials and technologies that requires expert skills and knowledge when it comes to maintenance and care. For your convenience we have compiled a Škoda EV Plan to provide up to 39% savings when compared to purchasing the services and components separately. See below for what is included in the Škoda EV Plan.

Routine Inspection 1 & 2 comprises of Electronic Health Checks to ensure your vehicle is free from faults and functioning correctly.

Service Interval Maintenance
High voltage component checks, Brake Fluid Change, Pollen Filter Replacement and a Coolant refill are the main tasks carried out by technicians during this service.

4 Low Rolling Resistance Tyres provide better battery range and low cabin noise levels. They are likely to be the most expensive operating cost you will experience during the lifetime of the vehicle.

Brake Pads may require replacement during the Service Interval or if the vehicle signals the driver on the infotainment display.

Wiper Blades ensure maximum visibility and safety. A set of wiper blades is included in the Tyre & Maintenance Plan.

Tyre and Maintenance Plan Summary: Replacement Tyres - As required €1,250, Mode 2 Charging Cable for backup/domestic charging (supplied at delivery) -€274, Inspection 1 & 2 - Electronic Vehicle Health Check, Functionality and Fault Assessment -€70, Routine Service Maintenance - High Voltage Component Check, Running Gear Assessment, High Voltage Battery Status, Brake Fluid Change, Pollen Filter Replacement, Top-up Cooling System Levels- €209, Brake Pad Replacement - As required-€175, Wiper Blade Replacement - As required -€96. Total value if purchased separately €2,064. As part of Škoda EV Plan €1,250 (saving of 39%). Price based on component recommended retail price and average dealer labour rates. Tyre prices are based on 21" Self Sealing Technology. Please discuss your Škoda EV Plan requirements with your local ŠKODA Dealer.

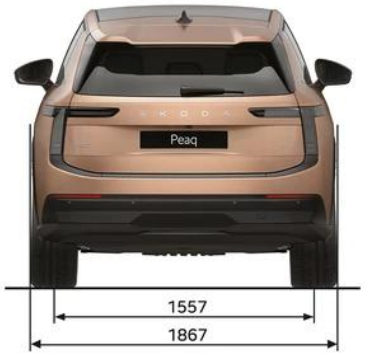

ŠKODA

Peaq: Technical Data

	60	90	90X
Battery capacity (kWh) – gross	63	91	91
Battery capacity (kWh) – net	59	86	77
Range – WLTP (km)	452	637	596
*Max. Power: kW**	150	210	220
Max. Torque: Nm	350	545	Front – 162 Rear – 350
Length (mm)	4,874	4,874	4,874
Width (mm)	1,867	1,867	1,867
Height (mm)	1,674	1,674	1,674
Wheelbase (mm)	2,970	2,970	2,970
Max. Luggage Capacity (l)	890	890	890
Top Speed (km/h)	160	180	180
0 – 100 km/h (seconds)	8.4	7.1	6.7
Gross Vehicle Weight (kg)	2,700	2,909	2,990
Max. Towing Capacity – Braked (kg) at 12 %	1,800	1,800	2,000
Drivetrain	4x2	4x2	4x4

**Maximum electrical output of 250kW and 210kW (85x & 85x Sportline) can be accessed for a maximum of 10 seconds, calculated in accordance with UN GTR.21. The amount of power available in individual driving situations depends on various factors, such as ambient temperature and the charge status, temperature and condition or physical age of the high-voltage battery. The availability of the maximum power requires the high-voltage battery to be between 23°C and 50°C and have a charge level of > 88%. Deviations from the aforementioned parameters in particular may lead to a reduction in power, through to the complete unavailability of the maximum power. To maintain the high-voltage battery's usable capacity as effectively as possible, a battery charging target of 80% is recommended if the vehicle is used daily (to be switched to 100% prior to long-distance journeys for example). With other engine-battery variants, the availability of the maximum electrical output could be limited. The amount of power available in individual driving situations depends on various factors, such as ambient temperature and the charge status, temperature and condition or physical age of the high-voltage battery.*
